PRECISION IN MOTION

# //UNIQUE ARM SYSTEM

The class performing DAT (Dynamic Arm Torsion) system design ensures optimum chain & fabric damage prevention. The awning arms open and close without touching fabric during operation. The DAT System features only stainless steel screws, bolts and pins and is the most advanced choice for your awnings.

## FEATURES

- / Strong and secure eight link stainless steel chain.
- / Outstanding mechanical performance.
- / Fabric damage prevention.
- / Teflon coated for marine grade protection.
- / Arms can be adjusted to tilt in single degree increments.
